

## HP LaserJet Family Number

Family numbers are always stated in whole 100s (such as 200 or 300), never numbers like 205 or 356. They are permanent, so customers can always find them. Product families are indicated by these numbers:

LaserJet PRO		LaserJet ENTERPRISE	
<b>100</b>	Personal low	<b>500</b>	Small workteam high
<b>200</b>	Personal low & high	<b>600</b>	Workgroup A4
<b>300</b>	Small workteam low	<b>700</b>	Workgroup and Department A3
<b>400</b>	Small workteam low	<b>800, 900</b>	(For future use)

## HP LaserJet Product Descriptor

The descriptor follows the family number, and can be one of four choices:

1. Blank—mono single function
2. "MFP"—mono MFP
3. "color"—color single function
4. "color MFP"—color MFP

## HP LaserJet and Scanjet Model Number

Model numbers are unique for every device. The "m" in the model number means model, not mono, as in previous product names. For example: M275nw, M551xh.

## HP LaserJet and Scanjet Bundle Identifier

Trailing Alpha	Description	Trailing Alpha	Description
a	Base	w	Wireless
d	Duplex	x	dtn or higher
dn	Duplex and network	xh	dtn + hard drive
f	Fax	z	Full feature MFP (fsk/fskm)
fl	Flatbed scanner	z+	Full feature MFP (used when more than one z model exist in the line-up for the same model number)
h	Hard Drive		
n	Network		
q	Workflow		
s1	Sheetfed scanner		
t	Tray		

The following "wild card" letters can be used for derivative SKUs: b, c, e, g, i, j, k, m, p, q, r, s, u, v, and y. These letters should not be used: l and o.

## Examples

Master brand	Sub-brand	Family number	Callout product descriptor	Model number (includes bundle descriptor)
HP	LaserJet Pro	100	Color MFP	M175nw
HP	LaserJet Enterprise	600	None (means mono single function printer)	M602dn
HP	LaserJet Pro	400	MFP	M425dn
HP	Officejet Pro	8100	ePrinter	A809
HP	Officejet Pro	8600	Premium e-All-in-One	A911
HP	Scanjet Enterprise	7000	Sheetfed Networked Scanner	S2

## LaserJet Supplies Selectability Number

HP LaserJet supplies have a new selectability number that makes it much easier for customers to identify the correct supplies for their product. Color laser supplies have a three-digit + alpha (A, X, D) number, while mono laser supplies have a two-digit + alpha number. Selectability numbers are in addition to HP standard part numbers and do not correlate. Black, cyan, yellow, and magenta all have the same selectability number, and are differentiated by packaging colors and descriptions. For example, "230A" is used for all four colors.

## LaserJet character limitation in advertising

If the number of characters is limited in advertising, fact tags and catalogs, the following naming convention is to be used.

Master Brand	Descriptor	Model Number
HP LaserJet	Blank	M175n
	MFP	
	color	
	color MFP	

# HP IPG LaserJet, Scanjet and Officejet PRODUCT MODEL NUMBERING GUIDE 2011

**HP LaserJet and Scanjet is moving to a new naming structure to make it easier for customers to find the device they want—whether it's time to upgrade, or to replace their existing printer, scanner, or MFP. The new naming system also makes it easier to find the right supplies.**

New LaserJet and Scanjet products will use the Pro and Enterprise sub-branding, a family number, product descriptor and a model number and a bundle identifier. The model number and supplies selectability number are the only part of the product name that will change with new product introductions. Officejet products will use the Pro sub-branding, a product descriptor, and a model number.

### HP Naming Segmentation

HP Product	Target Audience
HP LaserJet Pro	Businesses with small networks and minimal IT management
HP LaserJet Enterprise	Medium and large businesses with advanced networking, IT, security and document management
HP Officejet	Home office, micro, and small to medium businesses
HP Officejet Pro	Businesses with small networks or satellite offices and minimal IT management
HP Officejet Pro Enterprise	Medium and large businesses with advanced networking, IT, security, and document management
HP Officejet Mobile	Professional printing away from the office
HP Scanjet Pro	Businesses with small networks and minimal IT management
HP eStation	Ink All-in-One with advanced features
HP e-All-in-One	Ink All-in-One with SIPs/ePrint; web-connected All-in-Ones
HP All-in-One	Ink lower end models with traditional functionality, not web connected
HP Photosmart*	Home personal or home office
HP Deskjet*	Entry level customers, low volume printing
HP Scanjet Enterprise	Medium and large businesses with advanced networking, IT, security and document management
HP Designjet*	Graphics, pro-photo, technical firms and businesses
HP Indigo*	Commercial and industrial printing companies
HP Scitex*	Graphics and outdoor signage companies

\*Naming not covered in this guide
